REPORT
OF THE
TRUSTEES OF THE NEW BOSTON
CEMETERY.

For the year ending February 20, 1892.

Although required to yearly make a report to the town and bring to your notice whatever is needful for your sanction and co-operation, we know these reports are valuable mainly for the superintendent's report to us, herewith submitted. As you peruse this report you cannot fail to notice, that in the increase of mortality generally noticeable throughout the country, our beloved town has been exempted, and in point of numbers only the usual death rate is apparent. You will also notice the increase in the number of those who once spent some part of their life here, and who have, in their decease, been brought to the cemetery of their fathers and friends, and as it ever has been, and ever will be, the record shows the removal of active, earnest, loving ones, whose loss is a public and private calamity. In its outward appearance the cemetery shows new and costly monuments, and the care on private lots by surviving friends, equal to past years. We commend also the work of the Improvement society of the town in the labor and interest bestowed.

The work of 1892 is now before us and may its record of interest in "everything decent and in order" be an increase, rather than decrease. As trustees we see that a new survey and laying out of now unavailable portions of the cemetery, and making such portions attractive and

useful for lots must be done, and some further improvements in the roads therein be made. Without further remark we submit the reports.

REPORT
OF THE
SCHOOL BOARD OF THE SCHOOL DISTRICT OF NEW BOSTON,
FOR THE YEAR ENDING MARCH 1, 1892.

During the past year we have supported schools in Nos. 2, 4, 5, 6, 8, 9, 11, 12, 13, 15, and 16,—one term in No. 2, two terms in No. 16, and three terms in all the others.

We have paid tuition in the schools of Weare for three times the usual number of scholars, and have received more than the ordinary amount of tuition from Francetown.

We congratulate the district on the three new school-houses built during the year in Nos. 2, 15, and 16. They are in all respects well suited to the needs of modern schools. They were much needed, and will greatly aid the work of our schools in these sections.

No change of text-books has been made, except the introduction of physical geography and civil government to a limited extent.

We believe our schools, during the past year, have been up to the usual standard, but our standard should be raised. It has been the aim of the school board to hire the best teachers possible and to retain them through the year. But as the money at our command will not allow us to pay teachers as much as they receive in

most of the surrounding towns, it is very difficult to retain the best teachers in our schools. Either the amount of money raised by the district should be increased, or, by concentrating as far as practicable, we should support fewer schools. With the increased salaries thus made possible, our best teachers could be retained in our own schools, and superior ones brought in from outside.

We urge parents and citizens to visit our schools, make themselves familiar with their work, and give teachers a hearty support in all matters of discipline. Without good discipline good schools are impossible.

We believe the high school has been a real benefit to the town, and hope it may become the general custom for the more advanced scholars from all parts of the town to attend this school.
